## Soft Bamboo "double"

- a Bamboo yarn out of the ordinary

The yarn contains all of 70% of bamboo, which gives the yarn the softest experience and a special lightness. Comfortable to the skin, it makes it also very child-friendly. The texture is silky with a beautiful drape.

**Bamboo and environment** - Bamboo is the fastest growing plant in the world and thus a great source of sustainable production. Bamboo releases more oxygen than any other plant and grows without the use of pesticides. 23% cotton and 7% acrylic help to stabilize the soft bamboo and give the thread a good shape retention. Machine washable.

*The given amounts of yarn are for guidance only.*

If nothing else is specified, work in spiral rounds. To finish the work, join the round with a sl st. Leave a 20 cm length of yarn and cut. Pull the yarn through the stitch..

### Mounting of the safety eyes:

The eyes are inserted, and the rear stops to the eyes are pushed from the inside.

The rear stops can and should be a little hard to plug in to ensure that they are sticking well.

Put the needle in from under the chin and out at the side of the eye.

Guide the thread around some stitches by the eye and then back out under the chin. Tighten the yarn to form the hollow around the eye, tighten the yarn through a few stitches under the chin.

The hollow for the eye is now completed.

Should you want the hollow deeper the process can be repeated and a stitch added towards the top of the eye.

# Good to know

## Hook Size + Tension

Crocheters crochet very differently: some crochet with a hook size 2,0 mm and obtain the same size of design and quality as a person who crochets with a hook size 4,0 mm. We owe this knowledge to the team of crocheters who join us.

The key to crochet a specific size is a lot about the crochet style/hands/skills, rather than the size of hook. Therefore, we will recommend a range of hook sizes.
